Contents of Volume 16 — DIAGNOSIS

Orbital phlebography—IV—The cavernous sinuses and adjacent venous sinuses of the skull base
J. BRISMAR 1
Anatomy of the cranial nerves in the basal cisterns—A radiologic post-mortem investigation
A. GREPE 17
Meningeal reactions following myelography—Effects of detergent washing agent
H. VIK-MO and H.-J. MAURER 39
Congenital arteriovenous malformations of the uterus demonstrated by angiography
J. P. BOTTOMLEY and G. H. WHITEHOUSE 43
Liver biopsy with guidance in scanning—A preliminary report
U. ERASMIE 49
Intensifying screens in soft tissue radiography
E. DEICHGRÄBER, S. REICHMANN and K.-G. STRID 54
Contrast formation in fluoroscopic videodensitometry—III—Relation between roentgen tube potential and exposure rate to produce constant video level
B. LANTZ and K.-G. STRID 65
The pancreatographic effect during pharmacoangiography of the pancreas
R. SCHMARSOW and P. E. PETERS 73
Lymphography in the diagnosis of metastases from carcinoma of the uterine cervix stages I and II
A. KOLBENSTVEDT 81
Cavography and lymphangiography in Hodgkin's disease
S. LAURIN 98
Frequency of thrombosis and post-thrombotic conditions of the foot at phlebography
J. GÖTHLIN and S. ZURBRIGGEN 107
Becquerel and the discovery of radioactivity
F. KNUTSSON 113
Stereotactic exploration of brain tumours by ultrasound
E.-O. BACKLUND, B. LEVANDER and T. GREITZ 117
The cranial index according to Cronqvist compared to echo-ventriculography for determination of hydrocephalus
K. BERGSTRÖM and H. JORULF 123
Metrizamide-phenothiazine interaction—Report of a case with seizures following myelography
T. HINDMARSH, A. GREPE and L. WIDÉN 129
Computer assisted axial tomography in cerebrovascular lesions
S. CRONQVIST, J. BRISMAR, K. KJELLIN and C. E. SÖDERSTRÖM 135
Cisternography with the non-ionic water-soluble contrast medium metrizamide
A. GREPE 146
A tomographic test object
H. F. WILBRAND 161
In vitro and in vivo release of histamine by contrast media in the rat
M. P. LEITE, C. R. DE MORAES and J. GARCIA LEME 172
Circulatory disturbances after experimental fracture
J. SANDEGÅRD and B. E. ZACHRISSON 181

ROENTGEN DIAGNOSIS

Nervous system

Orbital phlebography—IV—Venous sinuses of the skull base 1
Anatomy of the cranial nerves in the basal cisterns 17
Meningeal reactions following myelography—Effects of detergent washing agent . . . 39
Stereotactic exploration of brain tumours by ultrasound 117
Cranial index of Cronqvist compared to echo-ventriculography for determination of hydrocephalus 123
Metrizamide-phenothiazine interaction—Report of a case with seizures following myelography 129
Computer assisted axial tomography in cerebrovascular lesions 135
Cisternography with non-ionic water-soluble contrast medium 146
Lumbar myelography with meglumine iocarmate and metrizamide 209
Patency of ventriculo-atrial shunt 241
Myelography in metastatic lesions 321
Fibrous septa in the straight dural sinus 331
Myelography with non-ionic water-soluble contrast medium 417
Side effects after lumbar myelography with dimeglumine iocarmate (Dimer-X) . . . 449
Cerebral distribution of contrast medium and paradoxical location of lesions of the blood-brain barrier in the rabbit 577
Objective symmetry detector method for gammaencephalography—IV 585

Digestive tract (incl. biliary tract and spleen)

Liver biopsy with guidance in scanning 49
Pharmacoangiography of the pancreas 73
Arterial collaterals in intrahepatic arterial occlusion 401
^{75}Se-methionine uptake in the pancreas—Experiments in mice 618
Angiography in disease of the peripancreatic lymph nodes 625
Intraphrenic esophageal leiomyoma associated with diverticula diagnosed by angiography 673

Heart and Vessels (incl. lymphatic vessels)

Orbital phlebography—IV—Venous sinuses of the skull base 1
Arteriovenous malformations of the uterus 43
Pharmacoangiography of the pancreas 73
Lymphography in the diagnosis of metastases from carcinoma of the uterine cervix . 81
Cavography and lymphangiography in Hodgkin's disease 98
Frequency of thrombosis and post-thrombotic conditions of the foot at phlebography 107
Circulatory disturbances after experimental fracture 181
Angiography in vascular injuries of the extremities 193
Projection difference index in lymphographic diagnosis of lymph node metastases . . 200

Angiography and hemodynamic measurements in extensive soft tissue trauma to the extremity . . . 279
Angiography in urinary bladder tuberculosis . . . 297
Lymphography as a guide to prognosis in malignant testicular tumours . . . 305
Radiologic heart volume from 100 mm photofluorogram . . . 313
Fibrous septa in the straight dural sinus . . . 331
Lymphography in carcinoma of the uterine cervix . . . 353
Effects of intraarterial injection of contrast medium on regional circulation in soft tissue trauma . . . 373
Arterial collaterals in intrahepatic arterial occlusion . . . 401
Angiography in epidemic nephropathy . . . 469
Circulatory disturbances following missile wounding of soft tissue . . . 481
Relative flow measured by roentgen videodensitometry in hydrodynamic model . . . 503
Injection device for pharmaco-angiography . . . 541
Three-dimensional reconstruction of the human heart by video technique . . . 545
Cerebral distribution of contrast medium and paradoxical locations of lesions of the blood-brain barrier in the rabbit . . . 577
Effects of vasopressin in experimental nephroangiography . . . 609
Angiography in disease of the peripancreatic lymph nodes . . . 625
Nephroangiography in Wegener's granulomatosis . . . 641
Intraphrenic esophageal leiomyoma associated with diverticula diagnosed by angiography . . . 673
Angiography of the dilator response in extremity trauma . . . 679

Lungs, Pleura, Mediastinum and Chest walls

Perception of simulated lesions in the lung . . . 494

Bones and Joints (incl. soft tissue)

Intensifying screens in soft tissue radiography . . . 54
Circulatory disturbances after experimental fracture . . . 181
Quantitative long-term determinations of the alveolar bone mineral mass in man by ^{125}I absorptiometry . . . 257
Angiography and hemodynamic measurements in extensive soft tissue trauma to the extremity . . . 279
Scintigraphy of facial skeleton with $^{99}Tc^{m}$-diphosphonate . . . 337
Adenolipoma mammae . . . 362
Effects of intraarterial injection of contrast medium on regional circulation in soft tissue trauma . . . 373
Bone mineral content in hereditary polycystic osteodysplasia associated with progressive dementia . . . 385
Soft tissue radiography in painful shoulder . . . 393
Psoriatic lesion of the sternal synchrondrosis . . . 463
Circulatory disturbances following missile wounding of soft tissue . . . 481
Soft tissue xeroradiography of the shoulder joint . . . 572
Angiography of the dilator response in extremity trauma . . . 679

Ear, Nose and Throat

Multidirectional tomography of defects in the facial canal 223
Double-barreled hypoplastic internal auditory canal in unilateral deafness 342
Comparison between the area and the volume of the air-filled ear space 347
Radiography of laryngeal carcinoma 367
Multidirectional tomography in reconstructive middle ear surgery 436
Multidirectional tomography of the facial canal 654

Ophthalmology

Orbital phlebography—IV—Venous sinuses of the skull base 1

Uro-genital system

Arteriovenous malformations of the uterus 43
Lymphography in the diagnosis of metastases from carcinoma of the uterine cervix . 81
Angiography in urinary bladder tuberculosis 297
Lymphography in carcinoma of the uterine cervix 353
Angiography in epidemic nephropathy 469
Effects of vasopressin in experimental nephroangiography 609
Urothelial renal pelvic tumours in phenacetin abusers 633
Nephroangiography in Wegener's granulomatosis 641

ISOTOPES

Liver biopsy with guidance in scanning 49
Quantitative long-term determinations of the alveolar bone mineral mass in man by ^{125}I absorptiometry 257
Scintigraphy of facial skeleton with $^{99}Tc^{m}$-diphosphonate 337
^{75}Se-methionine uptake in the pancreas—Experiments in mice 618

TECHNIQUE

Intensifying screens in soft tissue radiography 54
Contrast formation in fluoroscopic videodensitometry 65
A tomographic test object 161
Filtration in soft tissue radiography 248
Physical characteristics of barium contrast media and their influence on image information 263
Spectral variation of the conversion factor of an image intensifier 273
Speed of response of a 50 Hz and a 250 Hz TV system 407
Relative flow measured by roentgen videodensitometry in hydrodynamic model . . . 503
Influence of secondary radiation on image quality 520
Layer formation in narrow beam rotation radiography 529
Injection device for pharmaco-angiography 541

Three-dimensional reconstruction of the human heart by video technique 545
Theory of the photographic subtraction image 559
Form distortion in narrow beam rotation radiography 565
Soft tissue xeroradiography of the shoulder joint 572
Objective symmetry detector method for gammaencephalography—IV 585

CONTRAST MEDIA

Meningeal reactions following myelography—Effects of detergent washing agent . . 39
Metrizamide-phenothiazine interaction—Report of a case with seizures following myelography 129
Cisternography with non-ionic water-soluble contrast medium 146
In vitro and in vivo release of histamine by contrast media in the rat 172
Lumbar myelography with meglumine iocarmate and metrizamide 209
Effects of intraarterial injection of contrast medium on regional circulation in soft tissue trauma 373
Myeolography with non-ionic water-soluble contrast medium 417
Side effects after lumbar myelography with dimeglumine iocarmate (Dimer-X) 449
Cerebral distribution of contrast medium and paradoxical location of lesions of the blood-brain barrier in the rabbit 577
Glass fragments and other particles contaminating contrast media 600

MISCELLANEOUS

Becquerel and the discovery of radioactivity 113
Glass fragments and other particles contaminating contrast media 600
